I learned just as much from my cohorts as I did from the material and professors."*

## DESIGNED FOR YOUR SUCCESS

You will start the program with a three day Design Thinking and Team Building workshop to set you up for success in the MBA program. In the first year the mix of courses is designed to give you a balanced start in the program between quantitative and qualitative subject matters. In the second year you choose specialization courses to tailor the program to your specific career interest. In the second year you have the option to take a consulting course to improve project management and marketing skills, or you can choose to go on a nine day international trip in January to visit companies and meet with top executives in different fields. Previous trips have been to Chile, Panama, China, and Germany.

*Specialization Tracks Include:* International Business, Business Analytics, Global Supply Chain Management, Global Finance or General Studies.

*The flow of the program:*
